Ocean blue, or sky blue, brings you peace. For those busy people, a blue-tone home can make them relax and after they're back from work, just like feeling the breeze and looking at the blue sky.

The wave pattern surface can refract lights from different angles and bring a great visual effect.

BLOSSOM SERIES

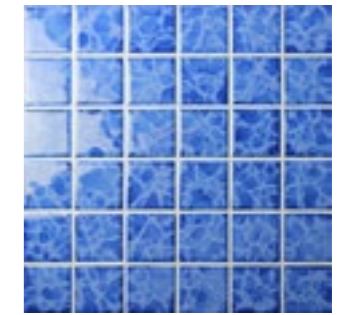

Inspired by the sun and water in nature, the design absorbs the essence of nature and reflects the aura of the house owner. The diffuse earth texture, the european-style building, and the dense arrangement of the mosaic tiles in the water, all this makes the magnificent momentum under control, majestic, yet not losing any delicacy or calmness.
